

Rock Painting

1. Gather a couple of medium-large rocks from outside
 - a. I prefer flat ones, but if you are making something that could use a round rock, that will be fine too!

2. Using paint and paint brushes, paint your rock however you would like!
 - a. You can make animals, paint a sunset, paint a quote

3. If you would like, using a thin layer of either clear glue, mod podge, or if you have a clear sealant, seal the painting in place so that it will last longer!
 - a. If you don't have any of these, that's okay. The design will still stay for a longer period of time.
4. After they dry, keep your rocks for decoration, put them in the garden, or place them around your neighborhood for people to see fun rocks and messages as they walk by!
5. Share pictures of your rocks before you put them somewhere! Tag The Woodlands on Facebook or email the pictures to kproug@woodlandsfoundaiton.org.
